How to turn off call forwarding nec phone

Transfer Calls: To transfer a call you are on to another extension, press the Transfer Key (the outside person is now on hold). Either dial the extension number or press the pre-programmed key of the person to whom you wish to transfer the call. You may stay on the call to announce the caller. To complete the transfer, simply replace the handset.

Place a Call on Hold: To hold a call you are on, press the Hold Key. The Call Key will flash indicating that your call is there. To retrieve the call, lift the handset and press the flashing Call Key. When a call is on hold at your extension, the Loop key is not flashing on other extensions. This prevents people from picking up a call that is not theirs.

Parking a Call: To Park a caller, press one of the Park Keys (if your system has a PRI for voice lines). The Park Key will flash. The caller is now on hold. Park instead of Hold will allow this call to be picked up at another extension. To pick up a parked caller, lift the handset or press the Speaker Key and then press the flashing Park Key.

Conference Call: While you are on a call, push the CONF Soft Key (soft keys are the four buttons under the display). Now make your second call. Once the second call has been established, push the ADD Soft Key and then push the BEGIN Soft Key. You are now on a conference call.

Forward An Extension to a Cell: 1. Press the Speaker Key 2. Dial 741 3. Dial 1 (set) 4. Dial 9 and the ten digit number 5. Press the Speaker Key to activate

To Cancel Call Forwarding: 1. Press the Speaker Key 2. Dial 741 3. Dial zero (cancel) 4. Press the Speaker Key to cancel

Pick up the handset. Press >>> Press FDN The phone's screen will display Forward Cancel Hang up the handset
